

DataScienceEcosystem

March 22, 2023

Add your code below following the instructions given in the course

1 Data Science Tools and Ecosystem

In this notebook, Data Science Tools and Ecosystem are summarized

Objectives:

- Languages for Data Science
- Libraries used in Data Science
- Data Set Licenses
- Open Source Tools for Data Science

1.1 Some of the popular languages that Data Scientists use are:

1. Python
2. SQL
3. R

1.2 Some of the commonly used libraries used by Data Scientists include:

1. TensorFlow
2. NumPy
3. Pandas

Data Science Tools

jupyter
R Studio
Spyder

1.2.1 Below are a few examples of evaluating arithmetic expressions in Python

```
[16]: print("This is a simple arithmetic expression to multiply then add integers:")
```

This is a simple arithmetic expression to multiply then add integers:

```
[17]: (3*4)+5
```

[17]: 17

```
[18]: print("This will convert 200 minutes to hours by dividng by 60:")
```

This will convert 200 minutes to hours by dividng by 60:

```
[19]: # Division Operation  
      200/60
```

[19]: 3.3333333333333335
